Professional Membership Preparation and Supervision Day, Saturday June 23

At Abbotsford Convent Melbourne Dorm 1, Rosina building, 1 St Helior Street, Abbotsford, Melbourne. The day will include an experiential supervision session aimed at encouraging reflective practice, as well as a supervision session involving predominantly verbal exchange. This will be led by Fran Ostroburski. Time will be devoted to mentoring prospective professional members as well as the Professional membership committee members being available to provide an information-giving session, responding to questions. Those attending and wanting to work towards professional membership status may wish to bring along their documentation so that mentors can more easily assist them. Supervision hours during the day can be counted towards the hours needed for Professional Membership, PACFA registration/ renewal, or just as professional development. It is anticipated that at least 4 hours of the day can be counted as supervision/professional development.

Program details will be posted on the website soon: www.dtaa.org.au A charge will be made for the supervision hours component, but there will be no charge for the information giving section of the day.

Amber Gray back in Melbourne

Abbotsford Convent Melbourne Dorm 1, Rosina building, 1 St Helior Street, Abbotsford.

Lifestreams: Continuum as Movement Medicine

Emilie Conrad, creator of Continuum Movement, teaches that all fluids are basically one element, resonating with all other fluids. They function as a kind of umbilical cord supplying us with the pulsing undulations of life. Amber Gray, authorized Continuum Movement Teacher and award winning dance movement therapist, has worked for many years with people who have survived violation, human rights abuses, and terror, using Continuum movement as a primary restorative practice in her work, and for resilience after injury, illness and chronic stress. Her teaching often combines Continuum with dance movement therapy, somatic psychology, current trauma and neuropsychological research, movement therapy, life impressions bodywork, ritual, and creative arts. The workshop will include opportunities to address specific participant or client issues as defined by the group and focus on how Continuum aids us to restore fluidity and health to our tissue, our movement, and overall well-being, after specific injuries, chronic stress, and/or exposure to life challenging or traumatic events. Reference will be made to how Continuum has been used with survivors of large-scale disasters, interpersonal violence and physical injury to guide our own fluid inquiries.

Centre Post Framework Training with Amber Gray planned for 2013

Body as Voice: Restorative Movement Psychotherapy Trauma and Resiliency Training Series

Exposure to traumatic events literally and metaphorically ‘freezes’ our bodies, minds and spirits in a ‘lock-down’ of past memories. Current neuro-psychiatric research has shown that when someone is traumatized, a majority of traumatic memory is implicit or sensory-motoric. Many of the researchers endorse the use of non-verbal therapies for survivors to fully integrate the past with the present and restore well-being and balance.

This training series will prepare clinicians, dance movement therapists, art therapists, and somatic therapists to work with survivors of trauma (in particular, trauma secondary to war, torture, interpersonal abuse, complex trauma, human rights violations, intergenerational and historic trauma, complex humanitarian emergencies and natural disaster) using a variety of very practical, body and arts-based practices and methods.

Hanny Exiner Memorial Foundation - Research in Dance-Movement Therapy

Australian Dance-Movement Therapy Research Grants 2012

The Hanny Exiner Memorial Foundation (HEMF) is now inviting applications for grants from persons in Australia intending to or currently conducting projects that could advance the field of Dance-Movement Therapy through evaluation, research and quality assurance activities. The grants could be used to seed initial investigation and enquiry into the field or provide some support for more developed research projects. The findings from these projects will improve the understanding quality and practice of Dance-Movement Therapy. Small projects that can contribute to future larger studies are eligible. Small projects that can contribute to future larger studies are eligible. HEMF recognises that the advancement of the profession requires that research be undertaken and reported on. The awarding of the grants is as much to provide public encouragement and recognition of this work as financial assistance.

PACFA 2012 Biennial Conference
What Works? An Exploration of Effectiveness in Counselling and Psychotherapy. 9am-4pm
Treficy Centre, 126 The Avenue, Parkville
Keynote Speakers: Professor Robert King School Psychotherapy and Counselling, Queensland University of Technology; A Roy Bowden N. Zealand Representative, World Council Psychotherapy.
There is a growing emphasis on evidence based practice in counselling and psychotherapy. It is increasingly important for the counselling and psychotherapy profession to understand and to be able to articulate which therapy modalities and interventions are effective for clients. We can then deliver more effective therapy to our clients and raise the profile of our profession, and the services we provide, with government and in the community.
Submissions for abstracts or proposed papers to be presented, symposia or workshops are requested by Friday 1st June. Please contact Operations Manager Simone Beyfus at PACFA via email simone.beyfus@paca.org.au or phone (03) 9486 3077 for more details. The conference committee will review the abstracts by the 15th June.

Research on basic emotions extended to June 9th
Please assist Dr. Tal Shafir (U. Michigan) and Rachelle Palnick Tsachor (U. Iowa) who are engaged in current research to identify a set of Body, Effort, Space and Shape elements that are strongly related to the experience of different emotions in body movement. At this point in the study, they are carrying out a larger survey to obtain enough responses for statistically valid results. To complete the survey you don't have to take any notice of the motif language (unless of course you are familiar with it). Simply read and respond to the words - some knowledge of LMA terminology is needed.
Message from Tal and Rachelle:
Dear Colleagues,
Thank you to all those who participated in our survey.
We still need many more answers in order to be able to do an appropriate statistical analysis. We hope this extension will bring us new participants and will enable those already participating to answer more questions.
To take the survey, please go to: https://umichums.qualtrics.com/SE/?SID=SV_7PePl30spbxble8

PACFA opens applications for Research Seed Grants
Announcement from PACFA. The Board has decided to support the development of research into counselling and psychotherapy by offering research Seed Grants. The amount of each grant is $4,000. Research seed grants will be awarded for research projects that are compatible with PACFA’s research priorities, and relevant to PACFA’s mission. Applicants are sought from experienced researchers or student researchers working under formal supervision.
Grant recipients will be invited to publish a poster at the next PACFA Conference and to publish a paper in the Psychotherapy and Counselling Journal of Australia (PACJA) within one year of finalising the project. Successful applicants are also encouraged to form linkages with a relevant PACJA MA during the study.

NEW SOUTH WALES

All About You - Flexibility & Support
Workshops with Michael Muir - The Awareness Institute, Suite 1, 20 Clarke St., CROWS NEST NSW 2065. Working with connective tissue using gentle somatic exercises and free movement dance allows new discovery. Connective tissue is the structure within our bodies that links everything together - from head to toe and everything in between. Working with the connective tissue will support our bodies re-establishing structural alignment and helps bring us back into balance - physiologically and emotionally. Our aim is to feel more connected in relationship with others, create more opportunities for choice and ultimately more flexibility in life. This workshop is all about feeling good, letting your body do the talking, moving in ways that support opening, stretching and celebrating full embodiment. No prior experience necessary.

ROSEN METHOD MOVEMENT teaches us how to relax, to cultivate the qualities of awareness, presence, and ease in our bodies so we can bring more of ourselves into our daily lives. The movements encourage natural, free breathing, increase range of motion, and improve alignment and flexibility.
A MOVEMENT INTENSIVE gives an in-depth experience of what it s like to enjoy one s full potential for movement. Each day will begin with an hour-long movement class followed by discussion about the underlying theory and structure of Rosen Movement. We will explore the movements in depth using various tools, such as anatomy lessons, partner work, and bodyreadings. The learning process will be supported with Rosen-sharing circles to allow expression of new discoveries and understandings.
Theresa Garcia from San Francisco, California will lead the Workshop. Theresa is a Senior Movement Training Teacher, an Introductory Workshop teacher, and in training as a Bodywork teacher. She has taught Rosen Method Movement in Canada, Europe, and Mexico, and teaches weekly classes in the San Francisco Bay Area.
Cost: $880 or early bird $790 (if paid before July 27)

2011 - 2012: DRAWING MOVEMENT with Lisa Roberts
ROZELLE SCHOOL OF VISUAL ARTS, 57 Nelson Street, Rozelle, Sydney.
Drawing Movement at the Rozelle School of Visual Arts, 57 Nelson Street, Rozelle, Sydney:
Workshops modelled on traditional Life Drawing, but instead of drawing a hired model, we take turns to move and be drawn, moving to simple "scores" for movement and drawing that are designed to expand our dynamic range of expression.
The overall aim is to relax and have fun as we learn new ways of experiencing, observing and recording movement. In theory we know that movement and drawing enable us to identify and strengthen our expressive 'voices'. We also know that it makes us feel good, particularly when we do it with other people.
So let's do more of it!
The cost remains $10, but you will need to bring your own drawing materials (including portable easels and drawing boards if you need these).

First UK Certification Programme in Laban Movement Studies
DMPS (Dance Movement Psychotherapy Scotland), Edinburgh, Scotland, UK.
bring LMA/BF training from Laban Institute of Movement Studies (LIMS), NY, to the UK.
Module one of the Certification Programme will begin in June 2012 as a 3-week intensive. Dates: Module 1 Immersion Mon 18 Jun - Sat 7 Jul 2012.
Fees: £1875.
LMA is not simply a tool to understand, classify and interpret human movement but a framework that enables the student to become immersed in their embodied experience of self, offering a new depth of self-knowledge and a clearer awareness of other. Laban Studies raise the profile and volume of non-verbal expression - in artistic and mundane contexts.
Programme Coordinator: Karen Studd CMA ISMETA, Principal Assistant: Susan Scarth SDMP CMA. The Edinburgh programme offers the potential for a strong and innovative learning experience based in a World Heritage city. Those who will benefit from the depth and breadth of these studies include dance movement therapists, actors, artists, musicians, health and body practitioners.

2-3 June 2012
The Wisdom of the Body and Movement in Supervision
Intensive weekend programme at Queen Margaret University, Edinburgh - experience the teaching of internationally known dance movement psychotherapists exploring the role of the body and movement in supervision. Prof Helen Payne (founder of the UK Association in Dance Movement Therapy, Professor at the University of Hertfordshire and author of the book: Supervision in Dance Movement Psychotherapy). Dr Hilda Wengrower (co-editor of the book, the Art and Science of Dance/Movement Therapy: Life is Dance, Lecturer in Haifa University, in the University of Burgos, Spain and other countries). Jeannette MacDonald (ex chair of the Association for Dance Movement Psychotherapy, held the first NHS posts in the UK in Dance Movement Psychotherapy and has lengthy experience of teaching and supervising. Emphasis will be placed on acknowledging body-felt and movement signals brought to supervision as holding important information about the relationship between supervisors and supervisees and between supervisees and clients/patients. The following areas will be covered:

a. Models for engaging the body and dance movement within supervision.
b. Bodily engagement with movement observation.
c. The use of embodiment and neuroscientific research.
d. Somatic counter/transference.
e. Ethical dimensions of somatic engagement.
Open to qualified arts therapists (drama, dance movement, music or art therapists), counsellors and psychotherapists or other professionals who offer (or intend to offer) therapeutic supervision for clinical practice. Fees: £185 (£130 concessions).

For further details about the weekend on supervision and and application form see:
